Lojack / Mobile Gps Tracker Blocker , Handheld Cell Phone Jammer 1570 - 1580MHz
2019/07/09

Product Name: Mini GPS Signal Jammer Frequency Range: GPS 1570-1580MHz
Output Power: 30dBm Power Supply: Car Cigarette Lighter 12V DC Antenna: 1pcs
Omni Antenna Jamming Radius: 1-10 Meters Weight: Approx 0.15KG/PCS
Dimensions: 20*20*80mm Mini GPS Jammer, Car GPS Signal Shield , RF / Lojack /
Mobile phone / Portable / Pocket GPS Signal Jammer Product Fetures: To blocker
GPS satellite positioning tracking Not affect mobile phones and other electronic
equipment's working Small size, light weight, easy to carry Product Applications:
Car installed for anti GPS tracking Product Specification: Working Frequency
Range GPS 1570-1580MHz Output Power 30dBm Power supply Car Cigarette
Lighter 12V DC Antenna 1pcs Omni Antenna Jamming Radius 1-10 meters Weight
Approx 0.15KG/PCS Dimensions 20*20*80mm FAQ: Why is there still a signal on
the phone's signal indicator when it works? A: It's just an illusion.In fact, the mobile
phone has been unable to communicate.When you press the pull button, you will find
that there is no signal on the signal indicator.The cell phone signal shield will not
interfere with the normal work of other electronic devices. The antenna should be
installed on the corresponding signs of each channel on the host, and then connected
to the host power supply. The effective coverage of the shield is a circular area
centered around the shield, so be careful to choose the location of the shield so as to
avoid blocking the dead Angle? A: No.This is because the electromagnetic signal
emitted by the cell phone's signal shield is completely within the country's mobile
operating band, which only blocks mobile communication.And this signal is always in
a relatively static state, and will not affect any electronic equipment. Are cell phone
signal Jammer harmful to people and mobile phones? A: Please rest assured that the
electromagnetic signal intensity emitted by the cell phone signal Jammer is very
weak. The test data indicates that this signal strength is far from harmful to the
human body.At the same time, the mobile phone signal shield is just blocking the
forward signal of the phone, so that the cell phone cannot be connected with the base
station, so there will be no damage to the phone itself. Is there any difference
between the effective shielding distance of the mobile phone signal shield in indoor
and outdoor use? A: There are.The effective shielding distance (30-40 meters) of the

cell phone signal shield is generally referred to as indoor distance. In open areas, the effective distance of shielding can be several hundred meters. It should be noted, whether they are within the room, or in outdoor use, effective shielding effect of shielding distance has relationship with environmental conditions, such as from the base station near and far, placed, etc. Therefore, when using cell phone signal shield, this factor should be fully taken into account to avoid blocking the dead angle and thus affect the shielding effect. Is the cellular signal shield the same for GSM mobile phones and CDMA mobile phones? A: that's a good question. Because CDMA mobile phone's anti-interference performance is far superior to that of GSM mobile phone, the effective shielding distance for CDMA mobile phone is smaller than that of GSM mobile phone, but the difference is not very large, about 2-4 meters. But it also reminds users to pay attention to some particularly important sites, and should increase the number of mobile phone signal blockers when necessary to ensure the shielding effect of CDMA mobile phones. After working for a period of time, the mobile phone signal mask is hot. Will working long hours damage the machine? A: thank you for your care. This is a normal phenomenon. In the design, we use the thermal conductivity of aluminum alloy to assist the heat dissipation. This can guarantee long time stable work. As a result, the machine will not damage the machine.

jammer cell phone signal

The first two are used by major mobile phone providers of the Netherlands as the primary frequency, 3 bands jammer for GSM / GPS signal, Google Play has something for everyone, how to choose the best GPS navigation system for your car.
